Learner Management System

As a MERN Stack Developer, I contributed to the development of the Learner Management system, focusing on both front-end and back-end functionalities.

- Responsive user interface using React.js and Bootstrap
- Restful APIs with Node.js and Express.js for data handling
- Managed database using MongoDB and Mongoose

Shopping-cart

The Shopping Cart application features an intuitive interface for browsing products, adding items to the cart, and managing purchases.

- Developed responsive user interfaces with React.js to enhance user engagement.
- Implemented state management using Redux for efficient handling of cart operations and Axios for Api calls
