ABOUT ME

As a front-end developer skilled in Html,css,js,React, Tailwind CSS, and Bootstrap, I have successfully completed multiple projects, creating responsive, user-friendly web applications. I am passionate about writing clean, efficient code and continuously learning new technologies. Seeking an opportunity to contribute my skills and grow in a dynamic development team.

TECHNICAL PROJECTS:

Shopping Cart App

Technologies Used: React, JavaScript, HTML, CSS, Bootstrap, Axios, Context API, Netlify

- **Description:** Built an interactive shopping cart app with React and Context API for state management, allowing users to add, remove, and adjust items dynamically.
- **Outcome:** Deployed a responsive, user-friendly shopping app with real-time updates, showcasing skills in React and frontend design.

RECIPE APP

Recipe App

Technologies:

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS, Axios, React Router, React Icons

Tools: Git, GitHub, Netlify, VSCode, Postman

- **Description:** Developed a recipe browsing app with React, styled using Tailwind CSS, featuring a search bar and filter options for easy recipe exploration. Users can search, navigate, and view detailed recipes seamlessly.
- **Outcome:** Delivered a responsive, user-friendly platform for exploring and viewing recipes, enhancing user experience with intuitive search and filtering capabilities.

ACCOMPLISHMENTS

- Developed and deployed web applications (Recipe Search, E-commerce, Task Management), demonstrating front-end expertise in building responsive, user-friendly interfaces.
- Integrated third-party APIs, utilized RESTful services, and crafted dynamic React components to create seamless user experiences across multiple projects.
- Strengthened debugging and testing skills by addressing real-world issues with tools like Chrome DevTools and Postman, ensuring reliable and efficient application performance.
